Illegal Immigration in Tennessee

We are a nation of laws, so we are told. The US Constitution – an iron-clad, still relevant contract-made between We the People and the federal government clearly reads this.

It seems one party to the contract has broken their part of the agreement over the many decades and does very little to answer or correct their dereliction of duty. Specifically, the part to **GUARD AGAINST INVA-SION.**

Here is Tennessee's fiscal burden of illegal immigration compiled by

An estimated 120,000 aliens are unlawfully present in Tennessee.

They cost the taxpayers \$547 million in state and local costs.

They pay an estimated \$50 million in taxes collected by the state.

That leaves a burden to the taxpayers of \$497 million every year. HOW?

Education: \$282 million in costs.

Healthcare: \$68 million in costs.

Justice & Law enforcement: \$41 million in costs.

Public Assistance: \$56 million in costs.

General government services: \$100 million in costs.

Millions upon millions of folks have ignored our immigration laws. Laws made by our representatives in Congress. We are told "there is no possible way to round up so many folks and enforce the law."

How long do you think it would take for the feds to round up millions of American citizens if we ignored the law to file and pay our income taxes? Answer: not long!

Only certain folks can pick laws to ignore and essentially NULLIFY those laws without consequence.

Citizens of the US cannot escape lawlessness without consequences...with liberty and justice for all....really?

HUD and AFFH—Call Ben Carson (202) 708-0417 and...

Goals for Dr. Carson to end federal tyranny. After years HUD intervention in development policy, the net result is more poor, bigger ghettos, and less hope for improvement. President Trump promised to end AFFH (affirmatively furthering fair housing) program and NOW IS THE TIME TO DO IT.

There are 5 things needed to restore local rule and property rights:

1. **STOP THE GRANTS.** The feds dangle money taken from us as a trap to force implementation of HUD policies.
2. **STOP THE DRIVE FOR REGIONAL NON-ELECTED**

GOVERNMENTS. This movement forces communities into a one-size-fits-all approach and takes government further from the people.

3. **WORK WITH CONGRESS** to write specific legislation that limits this agency's ability to create regulations beyond the initial scope of the program.
4. **ENCOURAGE WHISTLE BLOWERS** to report on bad policy within the agency.
5. **CUT THE HUD BUDGET** to minimize its overreach, using congressional oversight to keep this agency on a short leash.

PONDER THIS: The last time school consolidation took place was back in the 90's when city schools merged into Roane County Schools; a consolidation.

QUESTION: Since that time has there been any improvement or upswing of results regarding the quality of graduating students? NO! The return on investment made by our taxes is worse now!
